Subject: FW: Yucca Mountain Site for Spent Nuclear Fuel Storage

Part of Records Package / Supplement / Correction

> I am writing this message as a concerned citizen. For USA to maintain a
> healthy economy and to remain a strong country, it is essential that we
> have diverse choices of energy supply. Nuclear power has proven to be a
> reliable, safe, inexpensive and clean source of energy. For nuclear to
> remain as one of the energy choices, we need to ensure the fuel cycle can
> be completed. I encourage you to recommend the Yucca Mountain site for
> spent nuclear fuel storage. I am not an expert on site selection. This
> site is recommended by many of the experts. I do think we need to make
> the decision and work with it.
